PROJECTS / OPEN-SOURCE

SECURE PROPERTY | [LINK](#) React, JavaScript, Bootstrap, Java, Spring-boot, Blockchain, ML

Secure Property is a blockchain and ML based web project. This project will help people to find out the most reliable secured real estate or property. As we use blockchain technology in this project which decentralised all property so that no one anonymous could not changed any information. It is one of the most secure real estate website, where people could easily buy their beautiful place or property from it.
